HOME PAGE

I want this page to be as simple as possible since I have many older users that will view my page.

HEADER: clear white back ground, font size about 50px, & I want to work with name branding. I want a border around the header as well.

MAIN NAV: The navigation links. When you hover over the link, I want the color to change. And become bold. Font size to be about 20px as well. Also when you hover over the link it bolds up.

MAIN: font size: 15, dark color or grey.

Footer font size: normal/ 10px no border. Link: when you hover over it. Same link rules.

SECONDARY:

HEADER: clear white back ground, font size about 50px, & I want to work with name branding. I want a border around the header as well. Border color: dark blue

MAIN NAV: The navigation links. When you hover over the link, I want the color to change. And become bold. Font size to be about 20px as well. Also when you hover over the link it bolds up.

DIV LEFT COLUMN
 This column will only be for links that lead to the next pages.
Regular border. Border color: dark blue as well.

MAIN: will contain the information specifically about that page. Font size: 15 px. Font color: dark grey

Footer font size: normal/ 10px no border. Link: when you hover over it. Same link rules.

LAST PAGE:

This will most likely be the product pages. So I want it simple as well.

HEADER: clear white back ground, font size about 50px, & I want to work with name branding. I want a border around the header as well. Border color: dark blue

MAIN NAV: The navigation links. When you hover over the link, I want the color to change. And become bold. Font size to be about 20px as well. Also when you hover over the link it bolds up.

No left or right columns

Just a MAIN: Font size 15px Color: dark grey or dark blue.

Footer font size: normal/ 10px no border. Link: when you hover over it. Same link rules.
